## PROFILE

I am a student of Electronics and Communication Engineering Discipline, Khulna University. I am very energetic and proficient at my job. I am highly interested in data science and make the data insightful for my client. I have assisted a research work on IoT intrusion detection. It made me more curious on data science. I want to do more research in the future. I am enjoying the journey of learning data science.

## SKILLS

python

Scikit Learn

Power Bi

Jupyter Notebook

MS EXCEL

## REFERENCE

Name: Prof. Dr. Mijanur Rahman

Email: mijanku@gmail.com

ECE Discipline, Khulna University,  
Khulna.

## EDUCATION

**Khulna University**

BSc in Electronics and communication Engineering,  
Khulna University. 2019 - present

**Amanullah Degree College**

HSC (Science), Amanullah Degree College,  
Jessore Board, 2016 - 2018

## WORK EXPERIENCE

**Science BEE – Campus Ambassador**

I am acting as liaison point of Science BEE for Khulna University. We encourage children to participate and involve them in doing different science experiment. I will provide content and creative graphics designs for more engagement in social media. I also participate multiple grooming sessions.

**Uthsargo Foundation Bangladesh– Volunteer**

Working as volunteer in this non-profit organization. We focus on blood donation activities, provide financial support for underprivileged people. We come forward for relief during national crises like flood, storm even in CORONA virus pandemic we stand for people who work for hand to mouth.

**ICSA Bangladesh – Executive of HR & Graphic Designer**

Mainly ICSA is an non-profit organization, Working for homeless and penniless people. ICSA is conducting DIALOGUE different topics per week. They arrange workshop for students on career welfare. I work with HR. We actually appoint people, assign task and monitor them. Collaborate with other department to run multiple projects and hold the successive fruitfulness.

**Black Brains – Virtual Intern**

Black Brains has a program named ‘CSP’ – “Corporate Simulation program”. Where they train interns for 14 days to make them learn about corporate culture, etiquettes and many other business strategies. They have a definite goal to make corporate friendly people from this internship.
